## CULTURE ENTERPRISES' NETWORKING WEB PLATFORM

In the frame of 3C Project, Molise Region, with the support of project partners, developed a cross -border platform of cultural industries among the three partner Countries ad a drive for local empowerment and transnational networking among cultural industries in the targeted European area.

The 3C Platform was elaborated to fulfill different types and cases of cultural industries from the three partner Countries, Italy (Molise, Puglia), Albania and Montenegro.

The platform is enriched by:

1. georeferencing of every cultural industry / entity / stakeholder on the model of the open map divided and identified by different colors:

 green = Italy

 red = Albany

 violet = Montenegro

2. a timeline of all the activities programmed by cultural industries through several icons, one for each category of cultural industry or activity.
